

I am responding to a concern regarding broadcasters from wanting to silence Satellite Radio and prohibiting XM radio from providing traffic and weather broadcasts. The FCC should know that I am benefiting from listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what you are permitted to hear. Respectfully, I am urging the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that we demand and deserve.
